### TRUST AND AGENCY DEPARTMENT.

Under the approval of the Ontario Government the Company is accepted by the High Court of Justice as a Trusts Company, and from its organization has been employed by the Court for the investment of Court Funds. The Company acts as Executor, Administrator, Receiver, Committee of Lunatics, Guardian of Children, Assignee of Estates, Agent, etc., and as Trustee under Deeds, Wills, or Court Appointments or Substitutions, and also as Agent for Executors, Trustees and others, thus relieving them from onerous and disagreeable duties. Under Sec. 3, of 35 Vic., cap. 83, the Company may be appointed Administrator without any security being required other than the responsibility of the Company. The appointment of the Company in this capacity has been found in many cases a great convenience to the next of kin, where the extent of the personal estate made it difficult for them to furnish the necessary security, a difficulty which has been increased by the recent legislation, under which the real estate, as well as the personalty, devolves upon the administrator, and the value of both together has to be taken into consideration, in fixing the security required of the Administrator. The Company invests money, at best rates, in first mortgages or other securities; Collects Rents, Interest, Dividends, and acts as Agent in all kinds of financial business. It also Countersigns Corporate Securities.

### SAFE DEPOSIT DEPARTMENT.

The Vaults are in a building specially constructed, most substantial and secure, fire and burglar proof, and unequalled in Ontario, costing over \$30,000.

Safes and Compartments varying from the small box, for those wishing to preserve a few papers, to large safes for firms and corporations, are rented at low rates, and afford ample security against loss by fire, robbery, or accident. Bonds, Stocks, Deeds, Wills, Plate, Jewellery and other valuables are also stored in the Company's vaults.

## Explanation of the Articles in the Calendar.

These pages are calculate for Toronto, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

**NOTE.**—Standard times\* are given in all columns headed Toronto. In calculating, the mean time has been taken as 17m. 34s. slower than standard.

The times\* of the SUN'S RISING AND SETTING† are given for the upper limb, and are\*corrected for refraction for Toronto.

The standard times\* both for the rising and setting of the Moon's centre are given for every day for Toronto.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

**MOON'S AGE.**—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time\* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian twice on October 11.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The six last columns will serve with sufficient accuracy for the whole of Canada.

**GREATEST ELONGATION OF THE POLE STAR.**—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other Latitude is required, the number given in the column should be corrected by means of the following Table.

| Latitude .....                                   | 42°     | 43°     | 44°     | 45°    | 46°     | 47°     | 48°    | 49°     | 50°      |
|--------------------------------------------------|---------|---------|---------|--------|---------|---------|--------|---------|----------|
| 1st Correction for Degrees.....                  | -5' 14" | -3' 35" | -1' 50" | 0' 00" | +1' 56" | +3' 58" | +6' 7" | +8' 23" | +10' 47" |
| 2nd Correction for each minute of latitude ..... | + 1".7  | + 1".7  | + 1".8  | + 1".9 | + 2".0  | + 2".2  | + 2".3 | + 2".4  | + 2".5   |

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

|                                                      |                                      |
|------------------------------------------------------|--------------------------------------|
| Thus for latitude 43° 20'...1st correction = -3' 35" | 2nd correction + 1.7 × 20 = + 0' 34" |
| " " 47° 40' " " = + 3' 58"                           | " " + 2.2 × 40 = + 1' 28"            |
| " " 45° 10' " " = 0' 0"                              | " " + 1.9 × 10 = + 0' 19"            |

**MOON'S PHASES.**—This Table gives the times (standard 75th meridian)\* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

| Latitude .....                  | 42°           | 43°           | 44°          | 45°           | 46°           | 47°           | 48°           | 49°           | 50°           |

| Difference for 10' of latitude. | -1.7          | -1.7          | -1.8         | -1.7          | -2.0          | -1.8          | -2.0          | -2.2          |               |

\* In the present Almanac, the hours are numbered from 0 (midnight) to 23.

† Although these times are calculated for Toronto only, the standard times at other places not differing much from it in latitude may be obtained with sufficient accuracy for ordinary purposes, by adding four minutes for every degree west of Toronto and subtracting four minutes for every degree east of Toronto.

## Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, at 1 of the rising and setting of the principal fixed stars, as seen from the parallel of 46° north latitude. To ascertain when any star found in the following Table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a star, add the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 46°.

## CANADIAN TARIFF OF CUSTOMS.

Revised and Corrected to latest date.

NOTE.—As far as possible articles have been grouped under general headings, as Iron and Steel Goods of all kinds under "Iron and Steel Manufactures;" all kinds of Oil, Fish, Spirituous Liquors, etc., under those headings; those relating to Vehicles, under "Carriages," and so on. And to avoid the enormous bulk of duplicate or triplicate references the principal word only in each article has been taken for reference, as "Coats, Fur," under "Fur;" "Wax Candles," under "Candles;" "Plated Cutlery," under "Cutlery," and so on. We believe that the table will be found easy of reference and thoroughly reliable.

# POSTAL INFORMATION.

891.]

## Letter Rates, &c.

**Canada.**—Letters posted in Canada, addressed to any place within the Dominion, 3 cents per oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If insufficiently prepaid, the letter will (provided at least a partial prepayment is made) be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office, provided that the office is not one at which free delivery by letter carriers is established, are charged 1 cent

per oz., and must be at least partially prepaid; otherwise they are sent to the Dead Letter Office. All postage must be prepaid by Postage Stamps. Letters of this nature mailed at and for delivery from an office at which there is a free delivery by letter carriers are liable to 2 cents per ounce.

**Post Cards.**—From any place in Canada to any other place in Canada or to the United States, 1 cent each. British and Foreign, 2 cents each.

**United Kingdom.**—Postage on Letters, 5 cents per ½ oz., whether by Canadian or New York Steamers. If sent unpaid, double postage will be charged.

**Newfoundland.**—All classes of matter, same rates and regulations as to United Kingdom.

**Bermuda.**—Letters, 5 cts. per ½ oz. Newspapers and printed matter generally, 1 cent per 2 oz.

**United States.**—The rate on letters to the United States is the same as in Canada, and at least one rate must be prepaid.

## Registration of Letters.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration (use Registration Stamp), in addition to the Postage, is, on all classes of matter, five cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registered Letter Stamps have been issued of the denomination of 5 cents, which may be obtained at any Stamp Agency.

Registration Stamps cannot be used in payment of Postage.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

## Book Post, &c.

A Book Packet may contain any number of separate books. Limit of weight for domestic post, 5 lbs.; foreign post, 4 lbs. Limit of size, two feet in length, one foot in width or depth.

Book Packets must be open at both ends or both sides and must not contain any letter or sealed inclosure.

The rate on Book Packets between any two places in Canada is 1 cent per 4 oz., which must be prepaid stamps.

The rate to Great Britain and the United States is 1 cent per 2 oz.

### Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations of the British Post Office do not admit of the transmission by mail to the United Kingdom (or other countries beyond seas) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom by Book Post.

On all books, pamphlets, occasional publications, printed circulars, prices current, hand-bills, and other things wholly in print, and on packages of seeds, cuttings, bulbs, roots, scions or grafts, patterns or samples of goods or merchandise, the rate of postage is one cent for each four ounces or fraction of four ounces; and on books and newspaper manuscripts, printers' proofs, whether corrected or not, maps, prints, drawings, engravings, lithographs, photographs, when not on glass in cases containing glass; sheet music, whether printed or written; documents partly printed or written, being letters, or intended to serve the purpose of letters—such as deeds, insurance policies, militia, municipal and school returns, school or college examination papers or other documents of like nature,—and on all other miscellaneous matter transmissible by post and otherwise hereby expressly provided for, the rate of postage is one cent for each two ounces or fraction of two ounces; and the postage rate must in every case be prepaid by postage stamps or stamped post bands or papers; provided that no letter or other communication intended to serve the purpose of a letter be sent or closed in any such package or thing mentioned, and the same be sent in covers open at the ends or sides, otherwise so put up as to admit of the contents being, necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this regulation; (if enclosed in sealed envelopes notched at ends or sides, or with the corners cut off, letter rate postage will be charged); and that the postage rate be prepaid by postage stamp or stamped postbands or papers in all cases.

A packet of miscellaneous matter can be transmitted by mail if it exceed, 5 lbs. in weight, 24 inches in length 2 inches in width or depth.

Legal and commercial papers generally (including Bank Books) are liable to letter rate of postage, except when sent as parcels by Parcel Post, and the exceptions given to matter of that class are restricted to the documents specified, such as Deeds and Insurance Policies.

### Newspapers and Periodicals.

Newspapers and periodicals printed and published in Canada, and issued not less frequently than once a month at a known office of publication or news agency, and sent by mail to regular subscribers or news agents in the Dominion and the United States are sent free; if addressed to Great Britain, they may be posted by the same on payment of a rate of one cent for each pound weight of bulk, or fraction of a pound; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, and the postage rate thereon paid by the publisher or news agent, being the sender of, under such regulations as the Postmaster-General from time to time make.

All newspapers and periodicals posted in Canada, other than those addressed to regular subscribers or news agents, and bona fide specimen copies, from office of publication or news agency, including all newspapers and periodicals published less frequently than once a month, the rate will be one cent per 4 oz., to be invariably prepaid by Postage Stamp.

Newspapers and periodicals weighing less than 1 oz. may be posted singly, if prepaid by Postage Stamp at each.

A postage on specimen newspapers and papers and circulars published less frequently than once a month is sent per lb.

### Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, other than those sent from the office of publication, British newspapers posted by news agents for regular subscribers in Canada. When addressed to any place

within the Dominion, or the United States, they must be prepaid the following rates by Postage Stamp:—

If weighing less than 1 oz., half a cent each.

If weighing over 1 oz., one cent per four oz. or fraction of four oz.

On transient newspapers addressed to the United Kingdom, the rate will be one cent per 2 oz.—to be prepaid by Postage Stamp. Canadian newspapers posted from the office of publication to subscribers in the United Kingdom if to be sent in the Mails forwarded via New York must be prepaid by Postage Stamp at the transient paper rate of one cent per 2 oz.; but if sent by Canada Packet, such papers may pass, as now on repayment by the publisher, at the rate of one cent per pound. All newspapers and periodicals prepaid at the bulk rate of 1 cent per lb., must be stamped "Prepaid by Publisher," at the Post Office where the newspaper or periodical is mailed. The English Post Office requires each newspaper or periodical to be stamped. If sent in packages the English Post Office declines to accept them.

### Patterns and Samples within the Dominion.

Patterns and Samples of Merchandise and Goods for sale, not exceeding 24 oz. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, or prepayment by Postage Stamp of a rate of 1 cent per 4 oz., under the following regulations:

If such rate be not fully prepaid by the stamps affixed, the packet to be rated with the deficient postage, and a fine of 5 cents in addition.

Packages of Samples and Patterns, addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Patterns or Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The packet may bear on the outside the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; inside, there must be no enclosure but the samples or patterns themselves. The particulars, however, of the trade marks, numbers, and prices may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade patterns or samples, are not admissible.

### Parcel Post with the United Kingdom and Newfoundland.

An arrangement has been entered into with the Post Office of the United Kingdom and Newfoundland for a Parcel Post, under which closed Parcels not exceeding 5 lbs. in weight may be posted in the United Kingdom and Newfoundland, when addressed for delivery at certain Post Offices in Canada, and may in like manner be posted at those Canadian Post Offices for destinations in the United Kingdom and Newfoundland.

The Parcels exchanged with the United Kingdom will pass exclusively in the Weekly Mails conveyed by the Canadian Steamers to and from the St. Lawrence in Summer and Halifax in Winter, and such Parcels cannot be sent *via* New York.

The Parcel Post with the United Kingdom and Newfoundland will be governed by the following regulations:—

1. A Parcel must not exceed 5 lbs. in weight.
2. The dimensions of a Parcel must not exceed 2 feet in length by 1 foot in width or depth.
3. A Parcel must not contain any explosive, combustible, or dangerous articles, nor any article of a perishable or fragile character, nor liquids or matters likely to injure other Parcels or mail transmissions.
4. All Parcels must be securely and substantially packed and closed.
5. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the Parcel is intended.
6. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel, also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mullage or paste to the Parcel to which it relates.

Parcels from the United Kingdom will be liable to Canadian Custom duties, and under existing regulations must be examined for the purpose by an Officer of the Customs in the presence of the persons addressed.

### Parcel Post Charge.

All the Dominion, except British Columbia, 2 cents per pound or fraction of a pound. British Columbia 30 cents per pound or fraction of a pound.

Prepayment by postage stamp is required, but when a Parcel is posted in the United Kingdom or Newfoundland, for British Columbia, and by inadvertence prepaid at a lower rate than that applicable to that Province the Parcel will come to Canada, liable to collection by the Canada Post Office on delivery, of the deficient postage and it will moreover be optional with the Canada Post Office to impose a fine in addition.

Parcels may also be exchanged with all countries with which the United Kingdom maintains parcel post relations.

Fifth class matter must be so packed or put up as to be opened to examination of contents and must not exceed 4 pounds in weight, nor 2 feet in length by 1 foot in width or depth. When passing between Canada and the United States it will be subject to Customs regulations if liable to duty. The registration charge on 5th class matter is 5 cents in addition to postage.

Canada. The Judges reside at Ottawa, where the Supreme  
Court holds annually three Sessions—the first beginning

### The Exchequer Court of the Dominion.

The Exchequer Court constituted under a Dominion  
Statute, 50-51 Vict. Chap. 10 is presided over by one  
Judge and has original exclusive jurisdiction in all claims  
or actions against the Crown. It has concurrent  
jurisdiction in relation to revenue cases and the enforce-  
ment of penalties, in cases in which it is sought at the  
instance of the Attorney-General of Canada to impeach  
any patent of invention or any patent case or  
instrument respecting lands; cases against Crown  
officers for anything done or omitted to be done as such  
officer, and all actions or suits in which the Crown is  
plaintiff or petitioner.

Hon. Geo. W. Burbridge, Judge of the Court.  
Hon. A. Audette, Esq., Registrar.

### The Law Society of Ontario.

The Law Society was first established in 1797 by the  
Act, 37 Geo. III., c. 13, which enabled the then practi-  
sers of the law to form themselves into a society, and  
to make rules for its government. By the Act of 1822,  
c. IV., c. 5, "the Treasurers and Benchers of the  
Society" were formally incorporated; and under  
other statutes the Society has continued to be  
governed by a Board of Benchers, in the same manner  
as the various Law Societies of England. By Revised  
Statutes of Ontario, c. 138, the Benchers theretofore  
constituted, from time to time, by their own body, are  
now, exclusive of *ex-officio* members, elective by the  
members of the *ex-officio* consisting of the Attorney-General of  
the Dominion for the time being, if a member of the Bar  
of Ontario, and all members of the Bar of Ontario who  
at any time held the office of Attorney-General of  
the Dominion or of Ontario, or of Attorney or Solicitor-  
General of the former Province of Upper Canada, and  
retired Judge of the Superior Courts of Law or  
Judges of Ontario; the *elective*, thirty in number, being  
chosen by the ballot, for a term of five years, by the  
members of the Bar, in manner prescribed by the Act.  
The Benchers during the term are filled by the remaining  
members. On the first day of Easter Term, annually,  
the Benchers appoint one of their body to be Treasurer,  
and also President of the Society. The Benchers sit  
in convocation every term for the call of Barristers, the  
admission of Attorneys and Solicitors to Practice, and  
to admit to enter the Society, the fees paid by whom  
for the revenue of the Society. Osgoode Hall, appro-  
priately named after the first Chief Justice, is the  
"Inn of Court," or head-quarters of the Society,

in which is provided accommodation for the Court of  
Appeal and Courts of Equity, and for the sittings in  
term of the Superior Courts; with a valuable and exten-  
sive library.

**THE YOST****WRITING MACHINE.**

Latest production of G. W. N. Yost, the inventor of the  
"Remington" and "Caligraph" Machines.

**PROOF OF SUPERIORITY.**

The Sale of the Yost now exceeds that of any other machine.  
Challenges the world for speed.

The type, striking through the guide, will keep the alignment absolutely perfect.

The type, striking direct to the paper, instead of through a ribbon makes this the most powerful manifold extant.

Why use a dirty, antiquated, expensive ribbon instead of a metal based pad which lasts from 6 months to a year.

Type-arms tested to last over 30 years.

No ribbons, shifts, spiral springs or safety pins. Portable, Noiseless. Perfect.

Machines sent on approbation.

Operators supplied.

# How to Learn Shorthand.

Few studies can lay claim to such wide-spread utility as Shorthand, nor can be said of any accomplishment of similar value that it can be learned so easily. The value of Isaac Pitman's Shorthand (Phonography) as a means of education can scarcely be over-rated. Being founded on a scientific and rational basis, the learning of it trains the mind and improves the intellect. Its use gives a correct pronunciation, and is a great help in learning to spell. Every facility is afforded in learning it, and the instructive books are so plainly worded and so carefully compiled, that the art is pleasantly and easily acquired. The *Cyclopædia of Education* in an article on Shorthand, states that it is "easy to write, easy to read, and easy to learn."

## Press Opinions on Isaac Pitman's Phonography.

**THE TIMES.**—Generally in use, and now the favorite system. . . . Other schools of Shorthand lay claim to greater merits, but none have succeeded in ousting Mr. Pitman's from pride of place.—27 and 29 Sept., 1887.

**THE DAILY NEWS.**—The most practical of all systems of stenography.—3 March, 1886.

**THE GLOBE.**—Has practically displaced all other systems. Is nearly universal among the shorthand writers of the present day.—26 Sept., 1887.

**THE ILLUSTRATED LONDON NEWS.**—A perfectly scientific system of shorthand. Unquestionably far superior to every other.—1 Oct., 1887.

**THE QUEEN.**—At the present time the most popular system appears to be that of Isaac Pitman. . . . The continued popularity of the system proves its success.—1 Oct., 1887.

**THE SCHOOLMASTER.**—Despite the appearance of hundreds of new systems, a large proportion of them still-born, totally unrecognised, or practically useless, Phonography still holds the field as the best learning system.—11 June, 1887.
